

I use the Internet for...

Mobile Phone or Computer	Every day	Sometimes	Never
Buying			
Watch videos or sports			
Learning languages			
Talking to my family or friends			
Sending emails			
Looking for a house or job			
Move around the city			
Getting e.g., doctor's appointments			
Listening to music			
Looking for transport (schedules, tickets...)			
Reading news			
Something else, what?			

Let's speak and think with our partners - How do we use the Internet? How does it make our lives easier?
