

Role cards

You don't eat meat or fish. You want the main dish to contain vegetables. Try to make the others choose a vegetarian meal.

You really want to eat a traditional dish from the country you are visiting. You think trying local food is an important part of the experience.

You really want dessert. You don't mind spending €3–4 on something sweet, even if it means buying less of something else.

You have only €20 available. You want the group to spend no more than €20, so you can save €10. Try to convince the others to choose cheaper alternatives.
